ELKA
PROTECTION AGAINST EXTREMES

CONTENT

ELKA PRODUCT INFORMATION

Our stock items are available in sizes ranging from S to 3XL. Many styles are also available in XS, 4XL, and 5XL. You can find the prices in our corresponding price list or on our B2B webshop. Please note that 4XL and 5XL sizes have a surcharge of 25%.

STAY DRY & COMFORTABLE

Be sure to feel comfortable and well-protected when performing your many tasks in agriculture, where you may encounter a wet working environment – wear the waterproof professional workwear from ELKA Rainwear.

Whether you're cleaning the milking robot, washing machines, or cleaning walls and doors in your stables, wearing ELKA garments will equip you to perform your work tasks in the best possible way.

ELKA's wide agricultural range is built on more than 65 years of experience with wind- and waterproof workwear for professionals. When we develop products, we focus on durability, comfort, and functionality, ensuring optimal protection against wet working environments.

DryZone
BY ELKA

Dry Zone is the result of many years of experience and product development within PU rainwear.

The collection covers a wide range of durable, lightweight, and flexible PU/polyester products, ranging from basic rainwear to items with carefully selected details.

All Dry Zone products can withstand a water column pressure of 8000 mm.

ELEMENTS

BY ELKA

Wear the ELKA Elements rain gear and experience the sensation of being well-protected. The fabric combines PU and PVC, and the items withstand a water column pressure of 8,000 mm.

This rain gear offers excellent functionality, featuring reinforcements in exposed areas and back ventilation for enhanced comfort on the jacket.

Working Xtreme

BY ELKA

Shell jackets, winter jackets, softshell jackets, overalls, waist trousers and coveralls – you'll find it all in Working Xtreme, available in a range of different colors and fabrics.

This waterproof workwear features Scandinavian design, functionality, and durability.

The waterproof properties are supreme – the shown Working Xtreme items can withstand a water column pressure from 8,000 to 20,000 mm.

STRETCH - GET THE BEST FREEDOM OF MOVEMENT

In Working Xtreme, you'll discover ELKA Stretch: waterproof workwear that offers stretch for full freedom of movement and comfort while you work.

Say goodbye to stiff rainwear – with stretch, you can move freely and stay comfortable all day long.

The stretch items of Working Xtreme are easily recognized as they are emphasized with this stretch symbol.

TIP:
COVERALLS FOR EASY USE

In addition to two-piece rain gear, the ELKA range also includes waterproof coveralls in various fabrics, with and without lining.

The advantage of coveralls is that they are easy to put on and take off, and they do not separate when you stretch.

The ELKA range includes models for both men and women.

MADE IN EUROPE

The Made in Europe collection contains a wide range of products, all with the common feature that they are produced at our plant in Lithuania.

We are experts in PU and PVC high frequency welding, which is the absolute strongest production technology for waterproof workwear in these materials.

The result is PU and PVC products with a high water column pressure from 10,000 to 20,000 mm - with both waterproof fabric and waterproof seams.

TIP:
ELASTICATED SLEEVES

Farmers often wash upwards, which presents a particular challenge in preventing water that runs downwards from getting into the sleeve openings, especially when cleaning large machinery and washing stable walls and ceilings.

In these situations, it can be advantageous to wear a rain jacket with elasticated sleeves to ensure a good seal around the wrists.

If your jacket doesn't have elasticated sleeves, wearing loose sleeves over your own sleeves is another effective solution. This set-up ensures full protection against the water running downwards.

LOOSE SLEEVES

See page 32 for detailed product information.

MADE IN EUROPE

Thermal clothing can be used both indoors and outdoors in low temperatures. It's ideal for use in the stable when a winter jacket is too warm, and similarly thermal clothing can be worn in tractors, backhoes, or other agricultural machinery.

The thermal garments are lightweight, comfortable to wear, and offer good freedom of movement.

ELKA thermal garments are produced at our plant in Lithuania.

HOW TO MEASURE

ELKA RAINWEAR SIZES

We recommend you get the help of another person when taking measurements. Measurements should be taken directly on the body, preferably while wearing a tight-fitting garment and without pressing into the skin. All measurements in the size chart are provided in both cm and inches. If your measurement falls between two sizes, we advise you to choose the larger size.

CHEST:

Measure around chest at the widest point with arms at against side.

WAIST:

Measure around the narrowest part of the waistline.

HIPS:

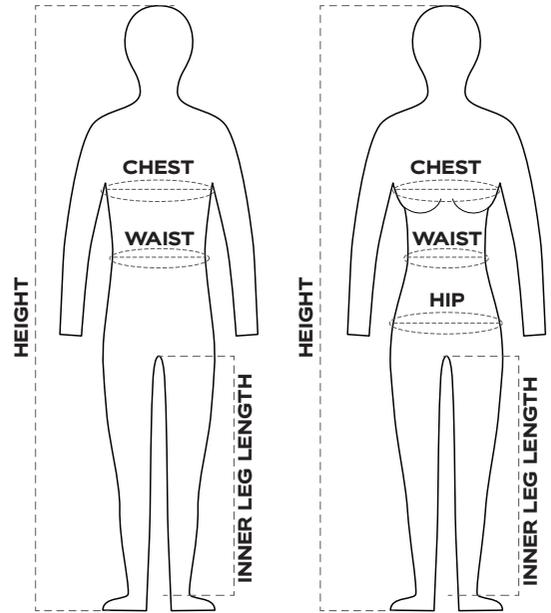

Measure around the hips at the widest point.

HEIGHT:

Measure from feet to top of the head.

INNER LEG LENGTH:

Measure from the crotch down to your ankle bone.

MEASUREMENT CHART ELKA MEN - UNISEX:

	XS	S	M	L	XL	2XL	3XL	4XL	5XL
Chest (cm)	84-88	92-96	100-104	108-112	116-120	124-128	132-136	140-144	148-152
Chest (inch)	33-34.5	36-37.5	39.5-41	42.5-44	45.5-47	49-50.5	52-53.5	55-56.5	58-60

CERTIFICATIONS

THE ELKA RAINWEAR PRODUCTION COMPLIES WITH
THE COMMON EUROPEAN **CE REGULATIONS**, ALSO KNOWN AS **EN MARKINGS**

EN

EN 343

PROTECTIVE CLOTHING: PROTECTION AGAINST RAIN

Standards for test method and requirements for fabric, seams and functionality. Applies to both waterproofability and breathability.

D

SCHUTZKLEIDUNG GEGEN REGEN

Norm für Testverfahren und Anforderungen an Meterwaren, Nähte und Funktion. Regelt Wasserdichtigkeit und Atmungsaktivität gleichermaßen.

DK

BESKYTTELSSEBEKLÆDNING MOD REGN

Standard for testmetode og krav til metervarer, sømme og funktion. Angår såvel vandtæthed som åndbarhed.

EN 342

PROTECTIVE CLOTHING – GARMENTS FOR PROTECTION AGAINST COOL ENVIRONMENTS

This standard specifies requirements and test methods for the performance of garments for protection against the effects of cool environments equal to or below -5°C. These effects comprise not only low air temperatures, but also humidity and air velocity.

SCHUTZKLEIDUNG – KLEIDUNGSSTÜCKE ZUM SCHUTZ GEGEN KÜHLE UMGEBUNGEN

Diese Norm legt Anforderungen und Prüfverfahren für die Leistung von Kleidungsstücken zum Schutz gegen die Auswirkungen einer kühlen Umgebung von -5°C oder weniger fest. Diese Effekte umfassen nicht nur niedrige Lufttemperaturen, sondern auch Luftfeuchtigkeit und Luftgeschwindigkeit.

BESKYTTELSSEBEKLÆDNING – TIL BESKYTTELSE MOD KOLDE OMGIVELSER

Denne standard beskriver krav og testmetoder til ydeevne af beklædningsgenstande, der beskytter mod virkningerne af et køligt miljø lig med eller under -5°C. Disse effekter omfatter ikke kun lave luft-temperaturen, men også fugtighed og vind.

EN 14058

PROTECTIVE CLOTHING – GARMENTS FOR PROTECTION AGAINST COOL ENVIRONMENTS

This standard specifies requirements and test methods for the performance of garments for protection against the effects of cool environments above -5°C. These effects comprise not only low air temperatures, but also humidity and air velocity.

SCHUTZKLEIDUNG – KLEIDUNGSSTÜCKE ZUM SCHUTZ GEGEN KÜHLE UMGEBUNGEN

Diese Norm legt Anforderungen und Prüfverfahren für die Leistung von Kleidungsstücken zum Schutz gegen die Auswirkungen einer kühlen Umgebung über -5°C fest. Diese Effekte umfassen nicht nur niedrige Lufttemperaturen, sondern auch Luftfeuchtigkeit und Luftgeschwindigkeit.

BESKYTTELSSEBEKLÆDNING – TIL BESKYTTELSE MOD KOLDE OMGIVELSER

Denne standard beskriver krav og testmetoder til ydeevne af beklædningsgenstande, der beskytter mod virkningerne af et køligt miljø over -5°C. Disse effekter omfatter ikke kun lave luft-temperaturen, men også fugtighed og vind.

EN 14605

PROTECTIVE CLOTHING AGAINST LIQUID CHEMICALS

Performance requirements for clothing with liquid-tight (type 3) or spraytight (type 4) connections, including items providing protection to parts of the body only (types PB (3) and PB (4)).

SCHUTZKLEIDUNG GEGEN FLÜSSIGE CHEMIKALIEN

Leistungsanforderungen an Anzüge mit flüssigkeitsdichten (Typ 3) oder spraydichten (Typ 4) Nähten, inkl. solcher Kleidungsstücke, die nur Teile des Körpers Schutz bieten (Typ PB (3) bzw. PB (4)).

BESKYTTELSSEBEKLÆDNING MOD FLYDENDE KEMIKALIER

Ydelseskrav til dragter med væsketætte (type 3) eller spraytætte (type 4) samlinger, inklusive beklædningsstykker, som kun giver beskyttelse til dele af kroppen (type PB (3) og PB (4)).

EN 14126

PROTECTIVE CLOTHING AGAINST INFECTIVE AGENTS

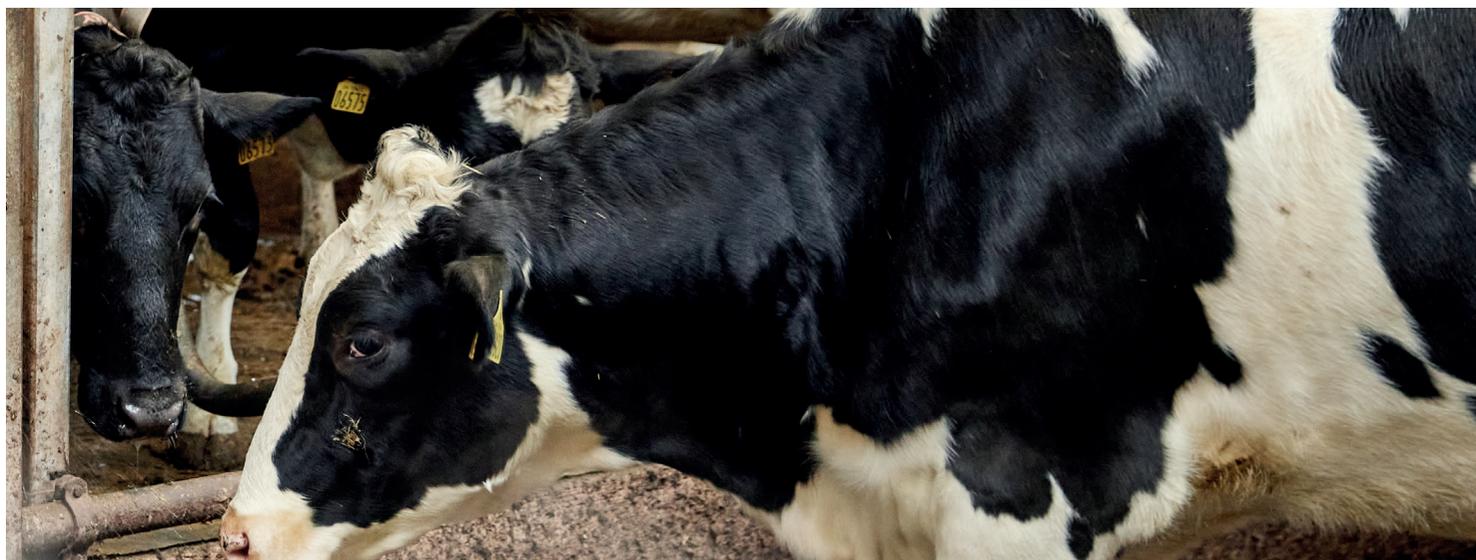

This standard specifies requirements and test methods for re-usable and limited use protective clothing providing protection against infective agents.

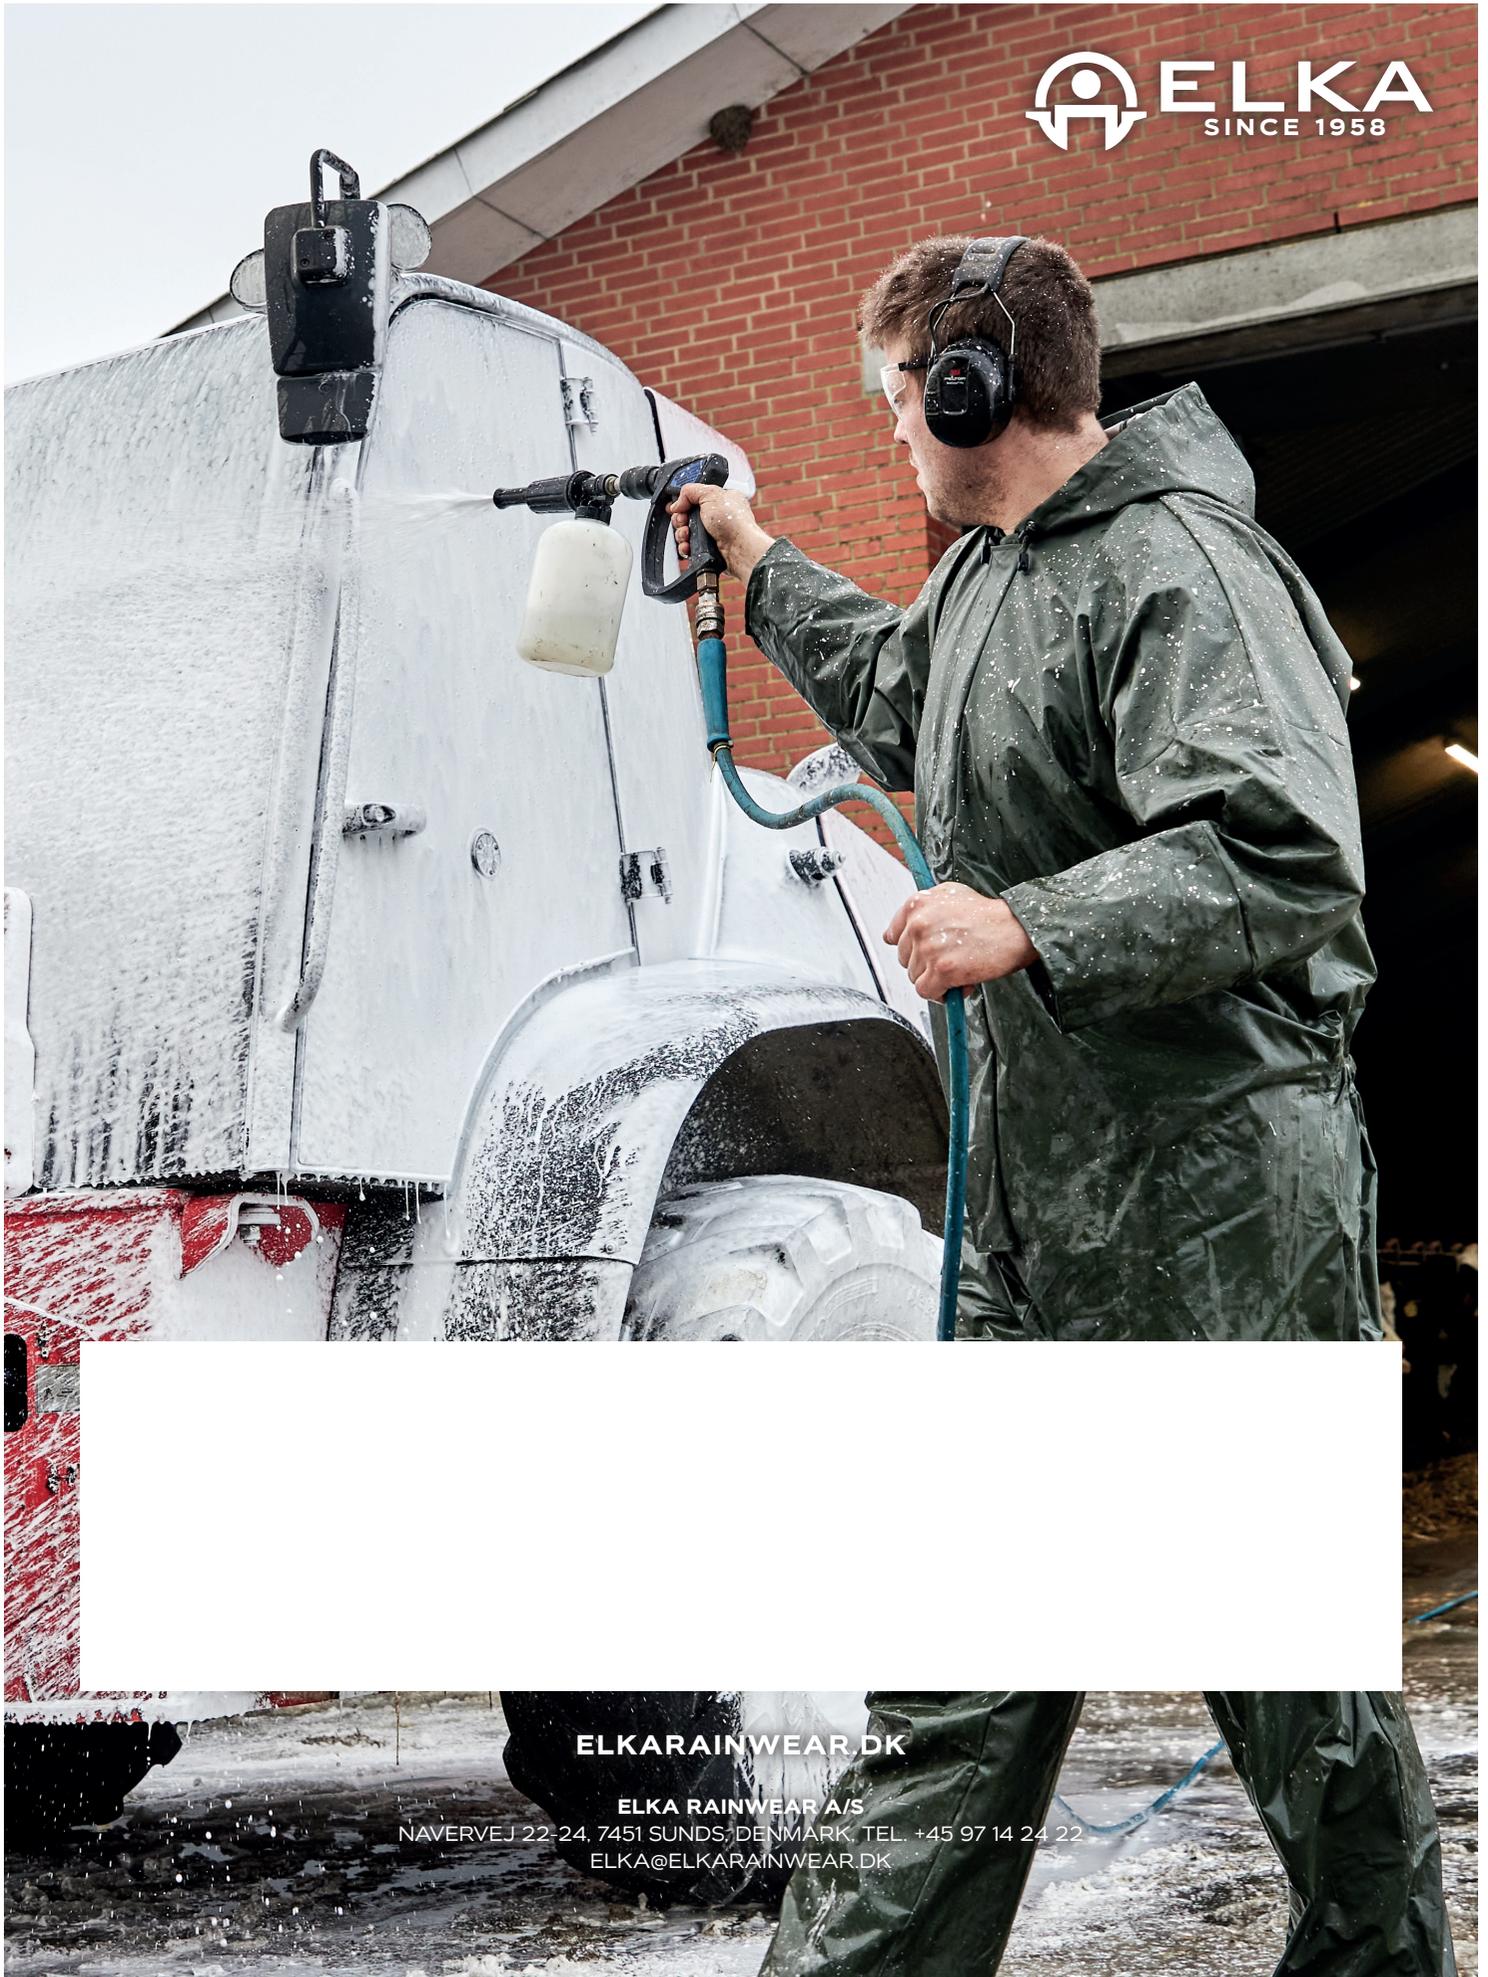

SCHUTZKLEIDUNG GEGEN INFEKTIONSERREGER

Diese Norm legt Anforderungen und Prüfverfahren für wiederverwendbare und begrenzt verwendbare Schutzkleidung zum Schutz vor Infektionserregern fest.

BESKYTTELSSEBEKLÆDNING MOD SMITSOMME AGENTER

Denne standard beskriver krav og testmetoder for beskyttelsesbeklædning, der giver beskyttelse mod smitsomme agenter. Genanvendelig beklædning med begrænset brugstid.
